

# INNOPOLIS UNIVERSITY

INNOPOLIS  
UNIVERSITY

# Innopolis University Today

**556** students

**12 113** applications submitted for **255** placements

**169** students graduated in 2017, **168** students employed, **1** graduate is doing military service in research troops of the Russian Military Academy

Joined the list of **top-5** Russian technical universities according to results of the Unified State Exam demonstrated by students admitted to the 1st year of study — the average score is **86.69**.

**36** academic partners worldwide, including universities with leading positions in the global rankings and CERN — European Organization for Nuclear Research

**131** leading IT companies cooperate with the University

**34** research grants with the total amount of funding of 1,7 billion Rub

**81** faculty members having work experience in leading IT companies worldwide

**84** undergraduate and postgraduate courses in 4 areas:

- Big Data
- Artificial Intelligence and Robotics
- Information Security
- Software Engineering

# Admission Campaign 2017

## Countries and number of applications:

Russia — 7872

The CIS (10 countries) — 1594

Other (133 countries) — 2647

## Applications from abroad:

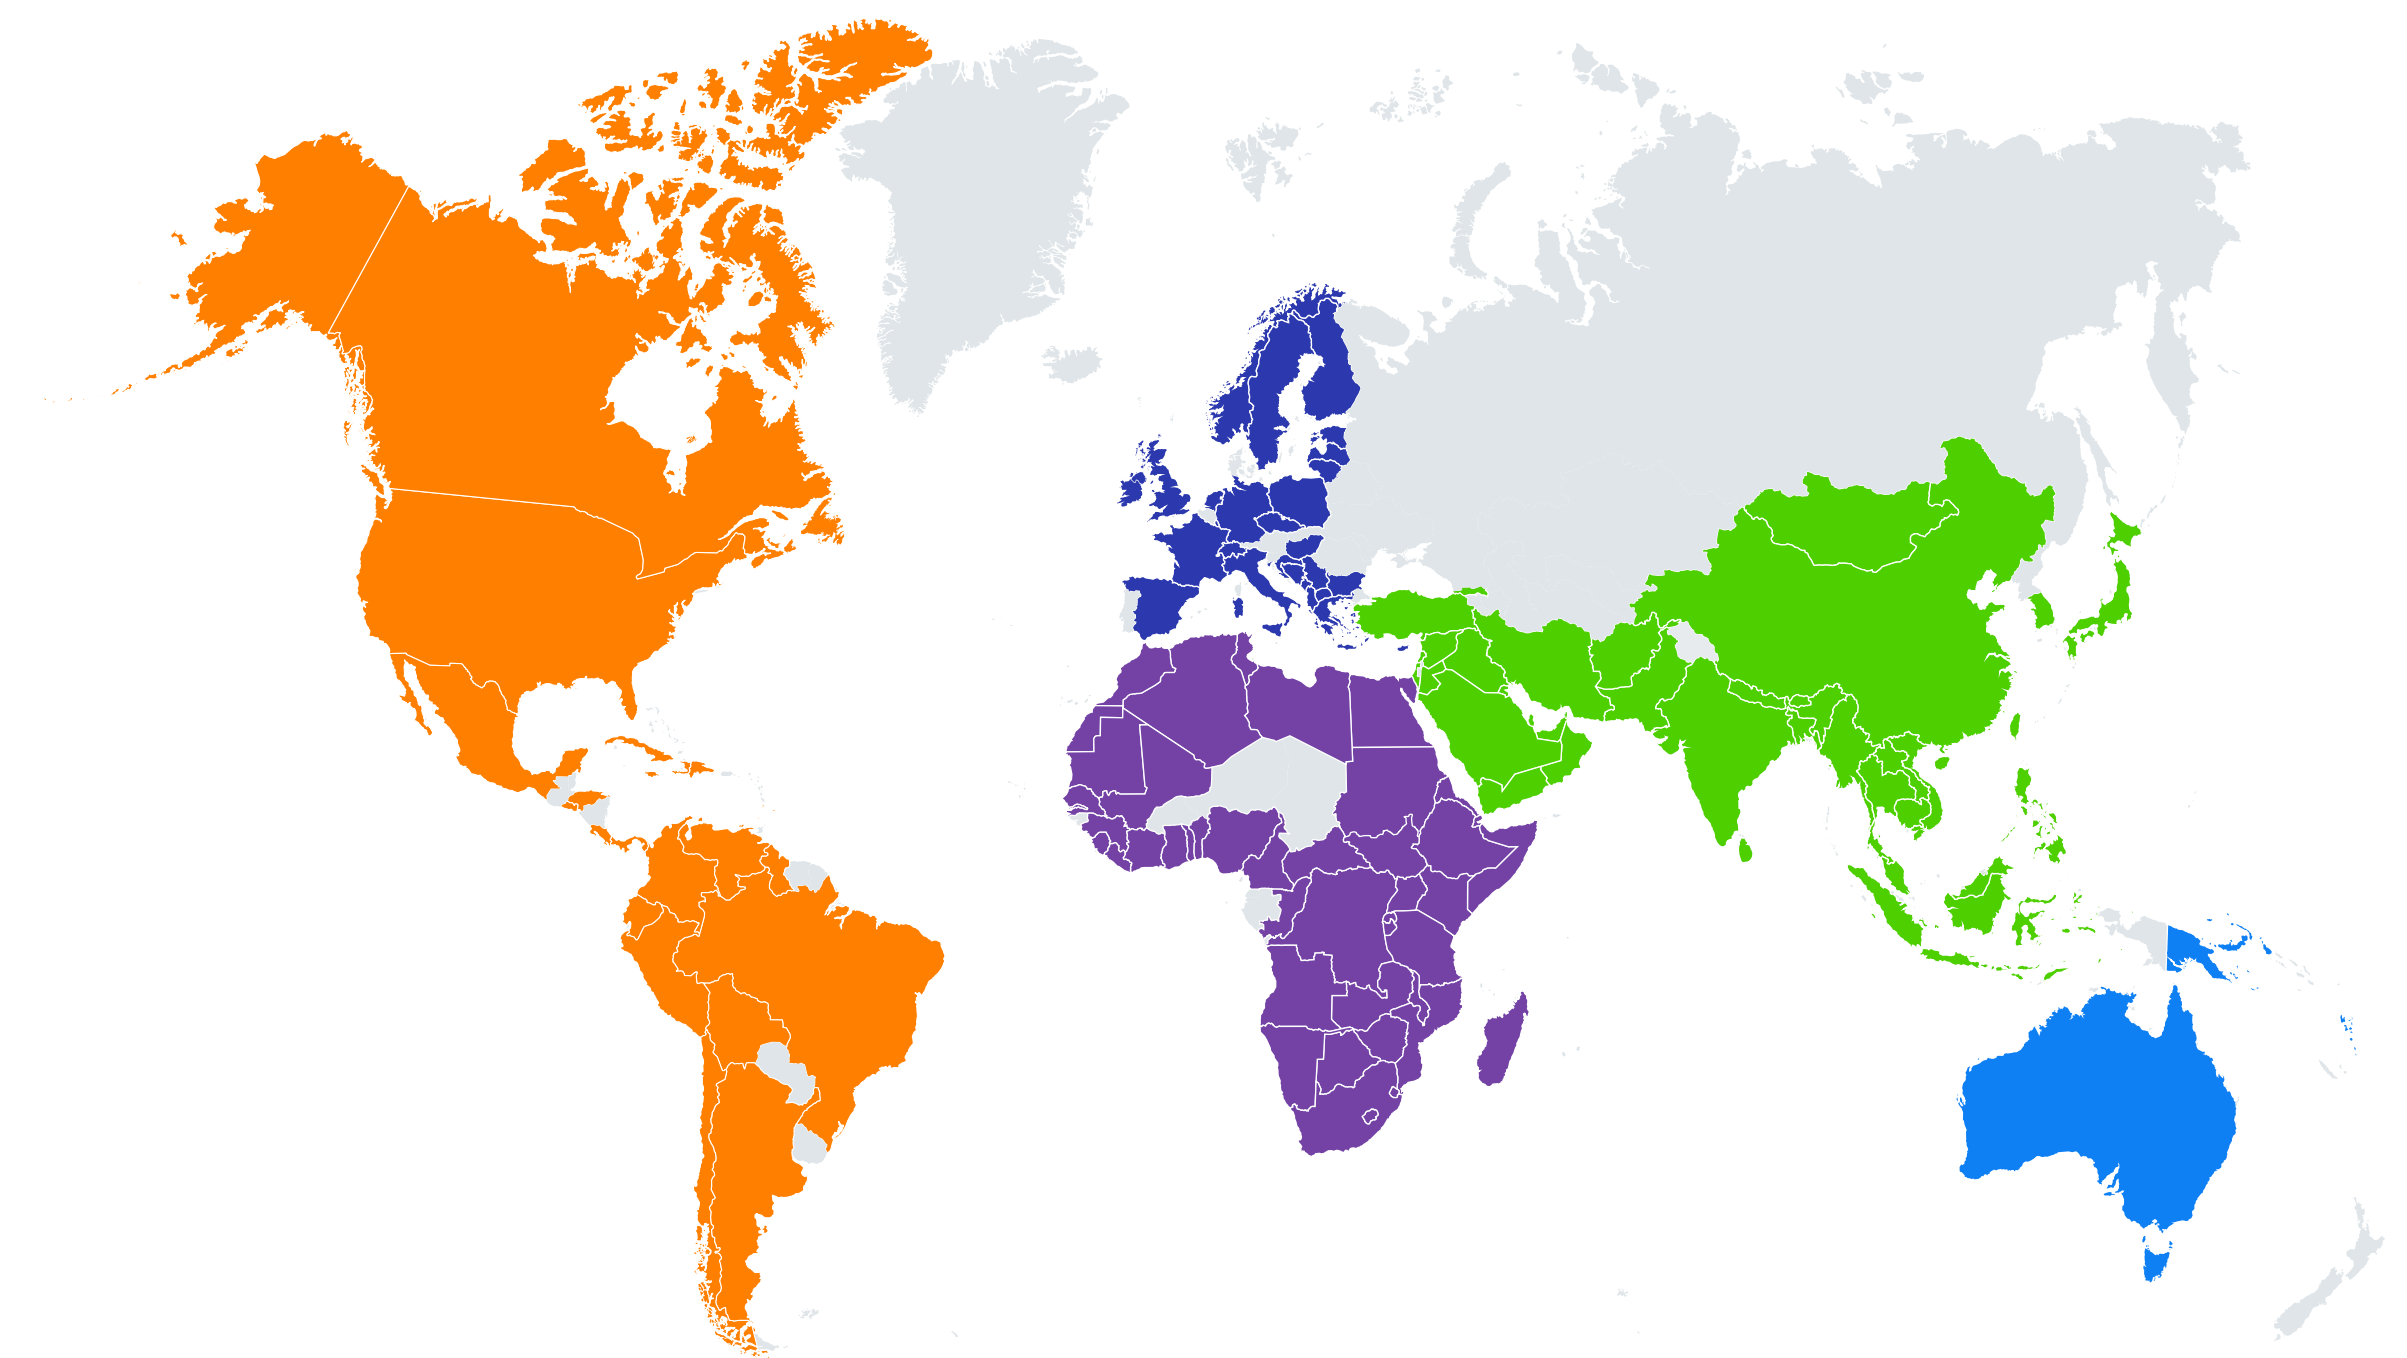

Africa — 1458

America — 117

Oceania — 9

Asia — 955

Europe — 108

## Number of applications for each program:

Bachelor's degree (CS1) — 7166

Master's degree (SE) — 2716

Master's degree (SNE) — 2231

# International and Academic Cooperation

## Europe

 **University of Bonn, Germany**  
Faculty of Mathematics and Natural Sciences

 **European Organization for Nuclear Research – CERN, Switzerland**

 **Innsbruck University, Austria**

 **IT University of Copenhagen, Denmark**

 **Polytechnic University of Milan, Italy**  
School of Industrial and Information Engineering

 **Polytechnic University of Catalonia, Spain**  
Barcelona School of Informatics

 **Sapienza University of Rome, Italy**  
Department of Computer, Control and Management Engineering

 **Dublin Institute of Technology, Ireland**  
School of Computing

 **Grenoble Institute of Technology, France**

 **University of Bologna, Italy**

 **University of Amsterdam, Netherlands**  
Informatics Institute

 **Harbour.Space - University for Technology and Design, Spain**

 **ETH Zurich**  
Chair of Software Engineering

 **University of Novi Sad, Serbia**

 **University of Ljubljana, Slovenia**

## Asia

 **Hong Kong University of Science and Technology, Hong Kong**  
School of Engineering

 **Seoul National University, Republic of Korea**  
Department of Computer Science and Engineering

 **National University of Singapore**  
School of Computing

 **Beijing Institute of Technology, China**

 **KAIST, Republic of Korea**  
Department of Computer Science

 **Indian Institute of Technology Madras, India**

## Russia

 **Kazan National Research Technical University named after A.N.Tupolev, Russia**

 **Saint Petersburg National Research University of Information Technology, Mechanics and Optics (ITMO), Russia**

 **Skolkovo Institute of Science and Technology («Skoltech»), Russia**

## America

 **Carnegie Mellon University, USA**

 **Federal University of Minas Gerais, Brazil**

# Education and Research together with Top Scientists

**Giancarlo Succi, Italy**

Dean of the Faculty of Computer Science, Head of the Laboratory of Industrial Production of Software

35

## Institute of Technologies and Software Development

**Manuel Mazzara, Italy**

Software Engineering, Telemedicine, Social Networks

17

**Bertrand Meyer, Switzerland**

Object-Oriented Programming, Temporal Logic and Verification

50

**Viktor Rivera, Columbia**

Software Engineering, Formal Methods in Software Engineering

7

**Nestor Catano, Columbia**

Software Engineering

10

**Eugene Zouev, Russia / Switzerland**

Software Engineering, Imitation Modeling Languages and Systems, Compilers

8

**Jooyoung Lee, Republic of Korea**

Industrial Software Development

8

## Institute of Information Systems

**Alberto Sillitti, Italy**

Software Engineering, Mobile Applications, Web-Services

25

**Yaroslav Kholodov, Russia**

Intelligent Transport Systems

12

**Joseph Brown, Canada**

Genetic Algorithms, Game Development

6

**Jooyoung Lee, Republic of Korea**

Big Data Analysis, Trust Algorithms in Social Networks, Game Theory

5

**Nikolay Shilov, Russia**

Cyberphysical Systems, Programming Theory and Applied Logic

11

**Vasilakos Athanasios, Greece**

Cybersecurity and Networks

81

**Rasheed Hussain, Pakistan**

Secure Systems and Networking Engineering

8

**Angelo Messina, Italy**

Software Engineering, Advanced Methods of Agile Software Development

**Alan Rogers, USA**

Software Engineering

## Institute of Artificial Intelligence and Robotics

**Adil Mehmood Khan, Pakistan**

Machine Learning and Data Presentation

15

**Ilya Afanasyev, Russia**

Intelligent Robotic Systems

6

**Alexandr Klimchik, Belarus**

Intelligent Robotic Systems

12

**Muhammad Fahim, Pakistan**

Machine Learning and Data Presentation

8

# Board of Trustees and University Leadership

**Nikolay Nikiforov**

Minister of Telecom and Mass Communications of the Russian Federation

**Mark Shmulevich**

Chief Strategy and Operations Officer at Acronis

**Roman Shaykhutdinov**

Deputy Prime Minister of the Republic of Tatarstan — Minister of Information and Communication of the Republic of Tatarstan

**Anton Sushkevich**

Co-founder of Postgress Professional and founder of «NVision Group»

**Serguei Belousov**

CEO and founder of Acronis, founder of Parallels and Runa Capital

**Dmitry Kondratyev**

Founder and Chairman of the Board of Directors of «UNIUM» — the largest Russian network of educational centers for schoolchildren

**Alexander Tormasov**

*Rector*

Alexander Tormasov is one of the leading world-class scientists working in the field of software and hardware virtualization. His research results are used by over 11 mln websites and more than 50 mln E-mail accounts. In 2013, Alexander was elected as the Head of the Russian Branch of the IEEE Computer Society. He is an author of more than 130 patents

**Kirill Semenikhin**

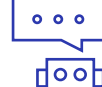

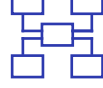

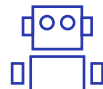

*Director*

Kirill Semenikhin graduated from Kazan State University. Prior to becoming the Director of Innopolis University, Kirill had been employed by Microsoft since 2004 where he moved up from a Key Account Manager in the Kazan office to a Regional Director and a Board member of Microsoft Russia. He was responsible for all Microsoft businesses in 85 Russian regions.

# Scientific Research Laboratories and Centres

## 13 Laboratories:

- |   |  |   |
|---|--|---|
|  Cyber-Physical Systems Lab                      |  Cybersecurity and Networks Lab                     |  Artificial Intelligence in Game Development Lab |
|  Intelligent Transport Systems Lab               |  Software Design, Models and Architectures Lab      |  Cloud Systems and Service Virtualization Lab    |
|  Software Engineering Lab                        |  Cognitive Robotic Systems Lab                      |  Data Science and Information Systems Lab        |
|  Network Science and Information Technology Lab |  Machine Learning and Knowledge Representation Lab |  Industrial Production of Software Lab          |
|  Intelligent Robotic Systems Lab               |  |   |

## 7 Centres:

- |  |  |   |
|--|--|---|
|  CERT-Centre                              |  Centre for Civil Aviation        |  Centre for Business Process Automation                              |
|  Centre of Geographic Information Systems |  Centre for Blockchain Technology |  Centre for Modeling and Analysis of Big Data in Finance and Economy |
|  Centre for Robotics Development          |  |   |

# Campus Infrastructure

**Academic and Research Venue**

**31 158 sq.m.**

total area with expected increase up to 50 000 sq.m

- 6 conference halls for 980 people
- 16 lecture rooms for 1 140 people
- 17 meeting rooms
- Library area of 2 154 sq.m
- 610 seats in the cafeteria
- 309 parking slots
- 96 bicycle parking slots

**Residential Venue**

**35 344 sq.m.**

total area

- 1 074 people, capacity of student dormitories
- 4 buildings
- Accommodation for 2-5 people in modern apartments
- 124 seats at cafeterias

**Sports Venue**

**8 602 sq.m.**

total area

- Swimming pool
- Fitness facilities
- Sports halls
- Multi-purpose sports grounds
- Football ground
- Tennis court

# Centre for Special IT Training

- Building of professional competencies and additional skills for completion of new tasks in the field of high technology.
- Employment in resident companies of Innopolis Special Economic Zone.

**12 000**  
applications

**230**  
graduates

**148**  
employed  
in Innopolis

## Training:

- Practice-oriented (major)
- Organization- and management-oriented (additional)

## Duration:

2 months (336 hours)

## Requirements:

- Higher professional education
- Work experience in the IT industry
- Readiness to move to Innopolis city
- Passing the selection to enroll in the program

# IT Business Module

- Individual targeted approach to program formation
- Community of experts in industry and technology
- Expertise of world-class researchers
- Proactive response to tendencies in IT development
- Morning is for theory. Afternoon is for practice. Evening is for implementation

**108**  
programs

**33**  
faculty members

**1 270**  
people from **11** companies  
were trained

## 14 modules:

 IT Management

 Virtual Reality

 Project Management

 Information Security Management

 Technology Entrepreneurship

 Machine Learning

 Applied Technologies in IT

 Software Engineering Management

 Big Data Management

 Interface design

 System Programming

 Cloud Technologies and Data Virtualization

 Management and Programming of Industrial Robots

 Enterprise Cybersecurity Management

# Resource Centre

Resource Centre helps IT companies to find experts they need

- Employment guidance for students and graduates
- Organization of internships and placements in industry
- Organization of career fairs and meetings with representatives of IT companies
- Labour market analytics and monitoring of IT trends
- Development of the University's career portal to help students find job and support companies in their choice of employees

**288** students have done internship in 2017:

**102** — administrative

**95** — industrial

**91** — research

# Centre for Career Development

## System of Professional Career Development and Student Career Formation

- Mentorship
- Soft skills development courses
- Planning of career paths
- Lectures and seminars on career guidance
- Workshops on employment:
  - What makes a good CV;
  - Secrets of self-presentation at job interviews;
  - Typical mistakes at job interviews.

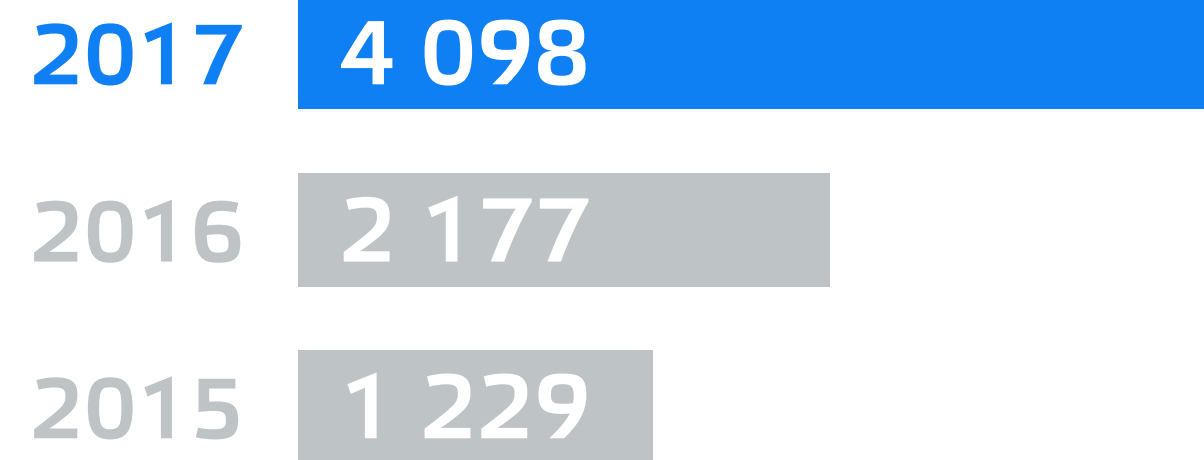

In 2017 the Global Education Program named Innopolis University the best employer according to results of its activity during three years.

# PR and Events

25 IT conferences and hackathons were conducted with informational support of Innopolis University in 2017.

## Publications in mass media

**2017:**  
**59 %** mass media of Russian regions  
**37 %** Russian mass media  
**4 %** international mass media

## Events

**2017:**  
**121** delegations  
**7** subject-oriented competitions  
**4** project-oriented competitions  
**18 376** people visited Innopolis University
